A New Auto Joke.

Sumertime brings with it a glow of peculiar types of humor. There is always someone who is ready to tell you the latest story about the Ford automobile. These stories are produced about as rapidly as the Ford automobiles, which recenty reached the astonishing record of one machine evers the seconds. the astonishing record of one machine every five seconds. There is danger in telling the latest Ford story for fear of that werried expression on the face of reader or hearn which signals, "I have heard it!" It is said that about a thousand new Ford stories are received by the advertising department at Detroit every week. One was soberly related by Uncle Joe Cannon on his return to Washington that will apply to any automobile or a Ford.

"The man," said Uncle Joe, "appeared at the door in a striking and histribnic attitude and gravely announced:
